

Our clients love us, here is why

Andrea goes far and beyond what I expected from an accounting firm. She helped me expand my hospital nearly double as far as the number of doctors and employees. We've increased our revenue & decreased my stress levels! She has absolutely revolutionized everything about our accounting system so we are able to track the trends of our business, and determine what services need to be promoted.

Dr. Nichole Zeller, Avian and Animal Hospital

They are more than just accountants. Andrea is like a partner in our business. It's really awesome to have someone who takes a vested interest in our business. She really spent countless hours getting to know our business...she really truly does act like our in house Controller.

LJ Shaw, Tampa Contractor Group

Andrea is not just an accountant. Andrea is the financial guru – the financial controller of my business. Her team doesn't act like staff accountants they act like they're members of my team.

If you want your books done right, you want straight answers, and you want someone that operates as a member of your team and not someone that is going to charge you billable hours, because it's good for them, then call Accounting & Business Partners

Casey Heldenbrand, Carl's Lock & Key

The team at Accounting & Business Partners handles everything having to do with accounting so I have more time to grow my business. I have more confidence in my business and I know they have my back. Their doors are always open to discuss any part of your business, not just accounting.

Chris Bastow, TruClean Floor Care

Success lies in the numbers, but it is what drives the numbers that truly matters. That's why we look at your business as a whole and not just the financial statements.
